

**Different roles and tasks
in the ecosystem?**

Who are the different people and organizations responsible for different parts of the ecosystem.
Who fulfills which roles? What tasks have to be fulfilled - during, before and after?

**Essential for fulfilling
your ecosystem’s purpose?**

Who is it that you can’t do without?
Who can make or break your system?

Space to get inspired by
images, quotes, photos

Stakeholder universe for...

Your project’s name

**Aligned with your
ecosystem’s purpose?**

Any natural allies or supporters?

Adversarial parties?

Who does NOT want you to succeed?
Who are you going to upset, scare or annoy?
Who’s interests are you going to hurt?

**Somehow related, dependent,
benefitting from your system?**

Are there any people who might rely on your
for their livelihood, income, or critical services?
Who might become a partner or collaborator?
Who’s going to benefit from your work without
lifting a finger?
